StarTech.com

Spec Sheet

The StarTech.com Advantage:

Support and Resources: Single point of contact for all your questions; exclusive online tools and free live technical support

Save Time Sourcing: A complete selection of high-demand and hard-to-find products from one vendor

Best Value: StarTech.com products offer the best combination of features and price

Exclusive Resources: Complete product information and tools available at www.startech.com

2 Port PCI Express FireWire 400 Card with Digital Video Editing Kit

StarTech ID: PEX1394A2DV

Supporting single lane PCI Express installation, this FireWire 400 card provides data transfer rates of up to 400Mbps, making it an ideal selection for connecting a broad range of devices including external hard drives, DV camcorders, HD video cameras, personal multimedia devices and more. Includes DV editing kit featuring Ulead VideoStudio software and 5ft Firewire cable.

PEX1394A2DV uses a native PCI Express single chipset that provides enhanced compatibility and performance, and a more cost-effective solution compared to bridged chipset versions of FireWire cards.

Applications and Solutions

> Connect high bandwidth multimedia devices with the reliability and speed of FireWire and PCI Express

Features

> Compliant with PCI Express Specification 1.0a
> Compliant With Provisions of IEEE Std 1394-1995 for a High-Performance Serial Bus and IEEE Std 1394a -2000.
> Easy to Install and use
> Includes everything needed to edit your own home movies, add scene transitions and other effects

with the included ULEAD VideoStudio SE Version 10.0 software

> Provides high speed data transfer rates of up to 400 Mbps

Specifications

> Bus Type PCI Express

> Chipset ID JMB381

> Connector Types 2 - FireWire 6 pin Female

> Carton Quantity 40

> Shipping (Package) Weight 0.4 lb [0.18 kg]

> Bus Type PCI Express x1

> OS Support Windows 2000/XP/Vista

> Chipset Jmicron JMB381
